

CREATING COMPETITIVE ADVANTAGE

Headquartered in Austin, Texas, Empire Countertops specializes in the fabrication and installation of granite countertops, as well as quartz, marble, corian, and solid surface materials.

CHALLENGES

In the competitive countertop market, minutes matter. The provider who can move the quickest to demonstrate expertise and value is the one who wins. With multiple locations, design & inventory centers, Empire Countertops wanted to connect their systems and departments while providing real-time inventory insights.

SOLUTION

“Choosing Gimbal for our IT and Accounting system implementation was the best decision our company has made. Gimbal was able to understand our business processes quickly and was able to recommend and design cost effective solutions that met and in many cases exceeded our expectations. I highly recommend Gimbal Logic for your next ERP implementation project.”
